Age-Defying Eye Cream

ISADERMIX® AGE-DEFYING EYE CREAM

One of the most advanced eye creams available.

A miracle for your eyes! Why buy multiple products when our Age-Defying Eye Cream includes each of the eye enhancing features you need in just one bottle? This rich blend of ingredients works to boost collagen, diminish wrinkles, fight fine line etching and wrinkles, reduce puffiness, and brighten dark circles. With Age Defying Eye Cream you get all the special nourishment, moisture and care that the fragile skin around your eyes deserves.

- Sodium hyaluronate helps hold moisture to the skin
- Eye-brightening peptides work to diminish dark under-eye circles and reduce puffiness
- A rich blend of 10 antioxidants to protect cells against free radical damage
- 5 age-defying peptides help relax and soften the appearance of fine lines
- Vitamins and botanical extracts accelerate skin's renewal
- Includes IsaSome Infusion Complex™ – our advanced liposome delivery system, to enhance anti-aging benefits
- Naturally paraben, phthalate and cruelty free

0.5 oz | 15 mL

Directions for Use

Dispense a full pump to fingertip; apply with patting motions and gentle massage to under eye, eyelid and the skin around lip area. Do not apply directly to lips. Use daily, morning and night.

Frequently Asked Questions

Is the Age-Defying Eye Cream suitable for all skin types?

Yes! All skin types can benefit from the rich blend of ingredients found in the Age-Defying Eye Cream.

Does my skin type influence how often I should use the Age-Defying Eye Cream?

No, all skin types should use the age-Defying Eye Cream every morning and night after toning and applying the Antioxidant C Serum with CoQ10.

Do I really need a separate product for the eye area?

Yes! The fragile, thin skin around the eyes requires unique care that day creams and night creams cannot fulfill. The Age-Defying Eye Cream includes a unique synergy of ingredients that will fulfill all these needs—including puffiness and dark under-eye circles—without the inclusion of a scent that could irritate the eyes.

Can the Age-Defying Eye Cream be used for the fine lines around the lips?

Yes! The skin around the lips is also delicate and the Age-Defying Eye Cream is specifically formulated to maintain moisture, boost collagen and fight fine line etching and wrinkles with gentle ingredients especially-suited for fragile skin areas.
