

# Photo Requirements for Recognition

## PREFERRED:

- Headshots must be a high-quality image between 5MB & 10MB and 300 dpi.

## TIPS FOR A GREAT-LOOKING PHOTO:

- It must be in color. No black and white photos.
- We want to see your face! Please, do not wear sunglasses.
- Leave the selfies for social and have someone else take your photo.
- Please do not include pets or children. This is your moment to shine!
- Please do not use filters or make any other photo edits.
- To keep your photo easy on the eyes, do not wear clothing with heavy patterns, logos, or branding.

**We can only use the photo on signage if it meets these high-quality standards.**

If more than one recognition photo is received, we'll choose one from the approved pictures on file. This ensures the highest-quality image is used for the deliverable (e.g., flyer, website, signage, stage).

Please note that the Creative team will touch up photos to soften fine lines, remove blemishes, etc. Please refer to your email or flyers for additional information and photo deadlines.
